Promethean®
Professional Development

Personalized Training by Teachers

At the heart of the Promethean Professional Development program is a wide offering of experiences and events, developed and delivered by teachers, and driven by best practices to assist educators with designing lessons and activities that support instructional engagement.

All Promethean Education Consultants are Google™ Certified Level 2 Educators and possess extensive experience in teaching, curriculum development, and education leadership.

Experienced, Engaging, and Effective

Our highly-motivated team of professional development consultants comes with a wide variety of certifications and many years of teaching and educational leadership experience. Their dynamic approach to training is designed to ensure successful implementation of Promethean technology and promote student achievement in today's modern classrooms.

Top Benefits:

Standards Driven – Aligned to National and Regional Standards.

Maximize Return on Investment – Informed and inspired teachers utilizing technology to the fullest capacity add to the value of that technology, leading to greater student engagement and greater student achievement.

Applicable – Consultants provide customized professional services that enable national, regional, and local educational institutions to reach their goals and initiatives.
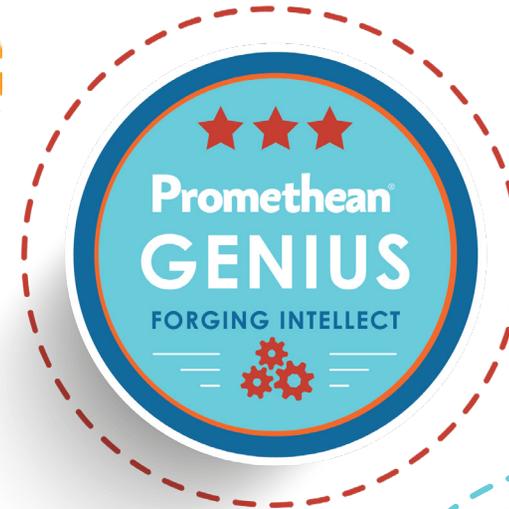

Badging

Badges represent an acquisition of skills within the Promethean ecosystem. The Education Consultant team has designed a learning path for educators and assigned leveled badges, so teachers can have the opportunity to share their knowledge and achievements with the world. Educators can put their badges (achievements) on public display by attaching them to social media sites like Linked-In, Facebook and Twitter, as well as adding it to their email signature.

Our Consultants have trained over 21,800 teachers in 2017

140
YEARS

The team possesses over 140 years of combined teaching experience

LEVEL 2

CERTIFIED
Educator

Promethean's professional development engages educators in professional learning that is guided by their need and requirements to help them seamlessly integrate technology into curriculum and instruction. We provide a suite of offerings that will guide you through effective instruction with your

Promethean solution, as well as other technologies, including iPads, Android, Chromebooks, and Google.

Customized consultations are offered to ensure educators are receiving courses that will impact their everyday teaching. All Promethean Education Consultants are certified Google Educators and have various other certifications.

Promethean ActivPanel and ActivConnect G

💡 Guru ★

Step-by-step hands on instruction will guide participants through learning how to integrate their Promethean ActivPanel and ActivConnect G into daily classroom instruction. As part of this training session, learners will explore educational apps, work with integrating existing classroom devices and master usage of Promethean hardware. Learners will be introduced to ClassFlow - a free, collaborative software for delivering interactive learning.

Promethean ActivWall and ClassFlow Connect

💡 Guru ★

Begin accessing and navigating your digital environments through the Promethean ActivWall and ClassFlow Connect solution. This training session will focus on navigating the ClassFlow Connect Windows 10 environment, mirroring devices, the ClassFlow Connect toolbar and an introduction to our award winning ClassFlow - a free, collaborative software for delivering interactive learning.

Getting Started with ActivInspire

💡 Guru ★

Get started creating engaging, interactive lessons using ActivInspire, Promethean's award-winning lesson creation software. Step-by-step, hands-on instruction will ensure that participants will have the foundational skills needed to begin integrating interactivity into lessons that actively involve students. Prerequisites: None

Intermediate Skills with ActivInspire

💬 Master ★★

Go beyond the foundation skills developed in the Getting Started with ActivInspire course. Build on the lesson-creation skills already mastered to add increased interactivity. The tools and capabilities introduced in this course will expand the ability to design lessons that invite students to be active participants. Prerequisites: Getting Started with ActivInspire

Advanced Skills with ActivInspire

⚙ Genius ★★★

Take the skills taught in the Getting Started with ActivInspire and the Building on Your ActivInspire Skills course to the next level with step-by- step, guided hands-on instruction that will introduce AtivInspire's advanced tools and capabilities. Combine these well-developed skills to engage students in creative lessons that can be taught in the classroom the next day. Prerequisites: Getting Started with ActivInspire and Building on Your ActivInspire Skills courses

Mentoring with ActivInspire

📶 Wizard ★★★★

Using knowledge and experience with ActivInspire, begin directing teachers at the school and district levels by sharing its capabilities for adding interactivity and student engagement to lessons. Re-deliver the three-course ActivInspire sequence to guide and mentor colleagues as they build their skills with the software and its integration into their daily lessons. Prerequisites: Getting Started with ActivInspire, Building on Your ActivInspire Skills, and Advanced Skills with ActivInspire courses

Promethean Master Educator Program

⚙️ Genius ★★★

This is a course pathway for educators who are experienced at teaching with Promethean ActivInspire instructional technology and have a passion for sharing the use of technology to improve teaching and learning. This three-module hands-on program guides participants through instructional design and advanced technology integration while exploring modeling and presentation skills. Participants will be expected to provide an original ActivInspire/ClassFlow flipchart that they will edit and deliver during the course. All participants who complete this course will receive Promethean Master Educator status and certificate.

The Promethean Master Educator Program can only be delivered by a Certified Promethean Education Consultant for participants to receive Promethean Master Educator status.

Prerequisites: Completion of Getting Started with ActivInspire and Building on Your ActivInspire Skills or ClassFlow Essentials and Beyond ClassFlow Essentials courses or 1+ year(s) equivalent experience with ActivInspire/ClassFlow software, Ability to confidently create an original ActivInspire/ClassFlow lesson.

I love the **hands-on** *aspect of this* **training.** *Being able to* **walk through things step by step** *was very helpful.*

@LearnPromethean

Your 1:1 Classroom

💬 Master ★★

Today's classrooms include technology that allows students to participate in a lesson individually from their personal device or a classroom set of devices. This participation allows them to contribute to the lesson or demonstrate their knowledge of the material. Leverage the full potential of the 1:1 devices in the classroom to transform teaching and learning. Develop best-practice strategies and practices for integrating mobile devices into daily instruction. This course can be customized to focus on iPads, Chromebooks, or Android devices as well as Office 365 and cloud-based applications.

Prerequisites: Access to the course-appropriate device with Internet capabilities.

We had a **very diverse group** *from* **very proficient to no experience at all** *and* **everyone learned something!**

@LearnPromethean

> *I Learned more in three hours on **how to fully engage my students** than I have in a long time. Thank you!!*

Using Google in the Classroom
💬 Master ★★

Collaborative learning and digital literacy come together with Google's suite of productivity tools for the classroom to create, share, and edit files in real time. Because all documents are stored in the cloud, students work from any device connected to the Internet – laptops, tablets, or hand-held phones – as they collaborate on projects. Learn from a Google Certified Educator how the capability of Google applications can be integrated into lessons.

Prerequisites: Access to the Google Suite and a device with Internet capabilities and the Chrome browser installed

ClassFlow Essentials
💡 Guru ★

This course provides participants with a core understanding of ClassFlow and how they can quickly find relevant resources to fully engage students. They are provided with a foundation that allows the continuing learning of ClassFlow and its application in the classroom. Participants in this course will receive step-by-step, hands-on instruction and integrated examples.

Beyond ClassFlow Essentials
💬 Master ★★

This course provides participants an understanding of the more advanced features and capabilities of ClassFlow, providing them with a firm understanding for how to continue integrating its application in the classroom. Participants will receive instruction designed to provide step-by-step hands-on instruction and integrated examples, that model the use of multimedia files, student badging, assessment creation, delivery and scoring, account personalization and publishing to Marketplace.
